D. OTHER

UPDATE! - Capital gains/losses – Capital gains realized in 2024 will be included in income at a 50% rate. While it was proposed that net capital gains realized from June 25, 2024 onwards would be included in income at a 2/3 rate, the Federal government has deferred the proposed implementation date to January 1, 2026. CRA will provide relief in respect of filing penalties and arrears interest until June 2, 2025 for impacted personal tax return filers.

UPDATE! - Alternative minimum tax (AMT) – The AMT ensures that taxpayers pay a minimum amount of tax, even when using legitimate tax incentives. Historically, AMT applied when tax incentives, such as the capital gains exemption, significantly reduced an individual's regular income tax. The computation of AMT has changed as of January 1, 2024; broadly, the changes target higher-income individuals, with lower and mid-income individuals generally at reduced risk of AMT exposure.

UPDATE! - Volunteer firefighters and search and rescue volunteers tax credits – The amounts for these credits are doubled to \$6,000, increasing the maximum tax relief to \$900 for each credit, applicable to the 2024 and subsequent taxation years.

NEW! - Digital platform operators – Commencing in 2024, digital platform operators (e.g. Airbnb, Etsy, Uber) must report seller information to CRA. This includes identification details, income earned by the Canadian sellers, and, for rentals, specifics of the rental property. CRA will be able to use the information provided for their compliance activities.

UPDATE! - Underused Housing Tax (UHT) – Thanks to the work of many practitioners, *including the draft legislative changes written and submitted by Cory G. Litzenberger, CPA, CMA, CFP, C.Mgr of our office in March 2023*, most Canadians and Permanent Residents **NO LONGER HAVE A FILING OBLIGATION** with respect to Canadian residential property that you own or are on the title of. However, if you are *neither* a Canadian resident nor a permanent resident, you may have a filing and tax obligation.

Please contact us to discuss if you feel there may be exposure to this tax. Filings are **not** included in your regular tax preparation engagement.

First Home Savings Account (FHSA) – FHSAs can be set up by first-time home buyers, allowing annual contributions of up to \$8,000, to a lifetime limit of \$40,000. Like an RRSP, contributions are deductible from income. If FHSA funds are withdrawn to acquire an eligible property, the withdrawal is not taxable. If

you are planning to buy your first home in the near term, contact us before the purchase for planning possibilities.

Canadian Dental Care Plan (CDCP) – The CDCP provides coverage for uninsured Canadians with an annual family income of less than \$90,000 however, individuals must apply to be covered.

Instalments required for 2025 – A pre-authorized debit arrangement is an online service-payment option which authorizes CRA to withdraw a pre-determined payment amount directly from a bank account on a specific date to pay taxes. This may help avoid penalties on late and/or missing instalment payments. The CRA interest rate on late or insufficient instalments for the beginning of 2024 was 10% and for the beginning of 2025 is 8%. This interest is not tax deductible.

MyCRA mobile App – This web app allows you to access and view key portions of your tax information, such as your notice of assessment, tax return status, benefit and credit information, and RRSP and TFSA contribution room.

CRA's My Account – Taxpayers can set up an online account with CRA that provides tax filing information and communications in addition to the information in MyCRA mobile App.

CRA Online Services – Account alerts – Individuals can register with CRA to be notified by email when CRA's record of an individual's address has changed, banking information for direct deposit has changed or if mail sent by CRA was returned.

Note: Additional provincial/territorial credits and programs may be available as only the most common have been included in this document.
